Canada Life Service

The Canada Life management studies to extend and broaden its service to the policyholders, while constantly aiming at increased efficiency. The Company is quick to adopt any measure which will promote either.

An Example of Canada Life Usefulness

By means of an annual deposit with the Company, a man may now arrange that in the event of his death his wife, or other dependent, will at once enter on an income of, say, \$50 per month. This sum is beyond the reach of poor investments and is absolutely assured to her for life—or for a minimum of 240 payments to the estate should the beneficiary die. The amount of the guaranteed monthly payment may be adjusted to suit the means of the assured.

This is the ideal provision in that it furnishes a guaranteed income for life, payable every month. As it may be provided through moderate annual payments to the Company, it is within the reach of every business man.
